

## Silver Marcasite Knot Ring | Switzerland c.1940s | 935 Silver POA

Crafted in high-grade 935 silver, this sculptural knot ring is a glamorous testament to mid-century European design.

Set with glinting marcasite in elegant, swirling channels, it sparkles with sophistication - without relying on diamonds.

The bold knot motif speaks of unity and endurance, a powerful symbol of connection during a period marked by upheaval and resilience.

Likely made in postwar Switzerland, it reflects the era's desire for accessible luxury: refined, expressive, and effortlessly stylish.

A striking statement piece that pairs as well with a cocktail dress as it does with a crisp white shirt.

Size K 1/2

Available exclusively at ELTONS, Grays Antique Market, Mayfair, London.
