

**A Gorgeous Georgian Chain with Hand in Tricoloured Gold, with
Turquoise and Green stone Ca1790
£4,450.00**

A really wearable Georgian chain in super condition with finely detailed links with stripes and circles . The links are in very good condition with only very little wear to them. The chain is of a lovely butter colour and light to the feel, just as it should be. The hand feels heavier, just as that should be :) .The hand is holding a snake ring and is wearing a ring on its forefinger. The little ring is slightly rectangular in shape and has a green translucent and opaque stone , the colour of Emerald. Since this is small and already a bit worn with a little chip (that can only be seen with a loupe) it is difficult to test. So, at this stage, I shall say it's a 'green stone'. On the cuff is a beautiful oval cabochon cut Turquoise. The hand is made in tricolour gold; lemon, butter and copper. I love the fine detailing on it. The fingernails on the reverse of the hand are in copper colour. It could stand for (the hand of)friendship is everlasting (snake)...It's truly a beautiful piece and in wonderful condition too. I find it remarkable that we are still able to wear this beautiful piece of jewellery over 200 years old with so much history , with today's contemporary fashions and look wonderful! Georgian jeweller, especially, in good condition is rare. Anything with a hand, especially a pretty hand is coveted for.

Layaway options are offered so please do get in touch if you are interested. Insured shipping is also included. Please do read the terms of sale before making any purchase. As this piece is antique there should not be any import taxes, if you are U.S based. Thank you for stopping by .
