

## Silver Stud Earrings with Chalcedony and Mother of Pearl | English c.1940s POA

A striking pair of silver stud earrings set with smooth chalcedony and luminous mother of pearl.

The softly domed cabochons sit in subtly engine-turned silver frames, creating a balanced contrast between texture and colour - one cool lilac, one vibrant green.

Designed in the confident, minimal style of the 1940s, they're quietly bold, elegantly mismatched and endlessly wearable.

The silver posts are new.
