

Silver Stud Earrings with Chalcedony and Mother of Pearl | English c.1940s POA

A striking pair of silver stud earrings set with smooth chalcedony and luminous mother of pearl.

The softly domed cabochons sit in subtly engine turned silver frames, one cool lilac, one vibrant green.

Designed in the confident, minimal style of the 1940s, they're elegantly mismatched and endlessly wearable.

The silver posts are new.
