

Translucent jade stone carved burner
POA

This perfume burner is made of quality light green translucent jade. The composition of dragons in combination with the shapes and curves of the vase itself creates a unique composition that is simply impossible to take your eyes off. It is also worth noting that thanks to the hard work and efforts of the carver, he managed to convey the maximum realism of this sculpture. Hard work, many hours of painstaking work with a solid stone exceed any expectations. The dragon symbolises luck, love, wealth, depending on which area they are placed in. Thus, in order to attract a man into your life and in the future to start love relationships, place the vase in the area of marriage and love. In order to increase the cash flow, place the vase in the wealth area, this is the southeast of the room. It will be a wonderful home decoration.
