

## Rolex Submariner No Date 14060M 2004 £8,850.00

Some suggest that the classic pre ceramic no date submariner is the is the most handsome of all submariners, I tend to agree. The 2-line dial makes this iconic piece very special. Less is definitely more.

This Rolex Submariner No Date 14060 has the traditional 40mm steel case, Oyster link bracelet and folding clasp with diver extension link.

It houses Rolex's calibre 3000 automatic movement and black super-LumiNova Swiss Made dial.

Supplied with its original Rolex papers dated 2004 and Rolex box
