

**Pearl Earrings in 9ct gold circa 1960, Lilly's Attic since 2001
£250.00**

- 9ct Gold
- Natural Cultured Pearls - size 8mm diameter
- date circa 1960

Q: Are Cultured Pearls real pearls?

A: A Cultured Pearl is a real pearl grown in a shellfish or mollusk. Instead of waiting for an irritant, like a piece of sand or small rock, to enter the shell, they are "seeded" by hand and in large quantities, using a bit of shell from a sacrificed mollusk.

Period	1960s
Condition	Excellent
Materials	Gold
Main Gemstone	Pearl
Carat for Gold	9 K
Diameter	Pearl 8mm in Diameter
