- Silver & Enamel
- All spoons are pre 1917 date
- Each Spoon Cost £1,250

Q: Is Russian silver real silver?

A: The standard for Russian silver is measured in zolotniks: the most common fineness is 84, corresponding to 875/1000 standard. There are also other standards that can be encountered, which include 88, 91, 94 and very rarely 96 (meaning pure silver).
