

**STEVENS & WILLIAMS Rock Crystal - PRUNUS Blossom - Intaglio Claret Jug - 29.5 cm
£1,250.00**

A rare Stevens & Williams Crystal claret jug.

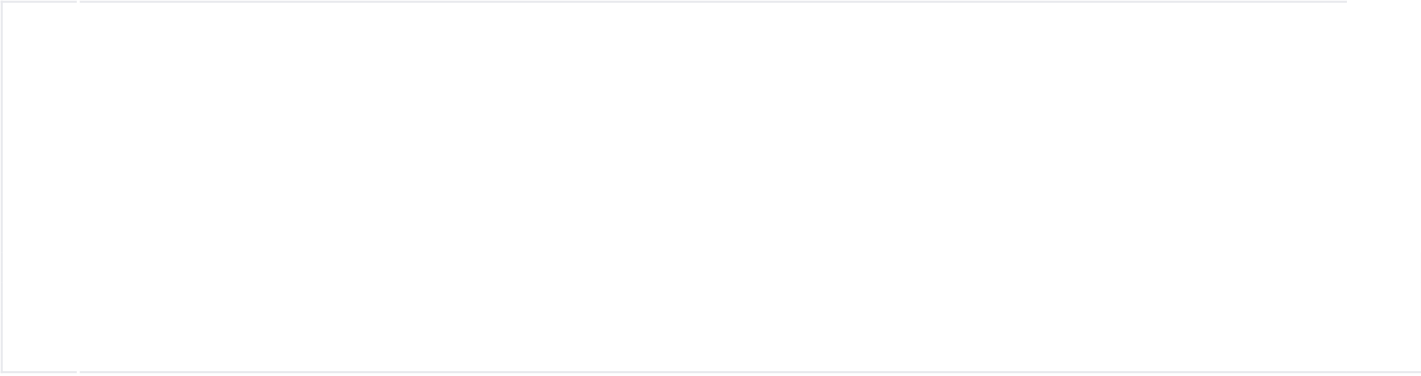

Late 19th / early 20th century, this is a single green cut through to clear flat sided jug featuring polished intaglio cutting with large Anthemion style scrolls with flowers and foliage.

Markings: Unmarked / unsigned. No makers marks.

Size: Measures 10 3/4" or 29.5 cm tall.

Condition: Item is in used condition. Fundamentally sound, there are no annealing cracks around the handles / body areas. The interior has a little detritus to the base, but not "cloudy". The decoration to the body looks to have survived without chips or damage. The stopper has some minor chips to the very top, but nothing excessive. The base of the stopper has some very small minor damages to the edges from clumsy inserting into the body. This has had the effect of some damage to the very top of the rim - please see final image above.
