

18ct Gold Daisy Diamond Cluster Ring | Edwardian c.1900s POA

A lovely take on the classic daisy cluster, from the early 1900s made in platinum over 18 carat gold and featuring a raised, bezel set diamond in an open collet, surrounded by eight diamonds in a soft scalloped border to form a daisy like star, with each stone framed in delicate millegrain edging.

The total diamond weight is approximately 1.00 carat, with all stones graded VS clarity and I colour.

The face of the ring measures 1.2cm across. Currently a UK size O.
